

## **ASX/MEDIA RELEASE**

ASX: MLA 28 February 2014

### **APPOINTMENT OF JEREMY DELK** **AS A DIRECTOR**

Medical Australia Limited is pleased to announce the appointment of Jeremy Delk as a Director of the Company. Jeremy has been responsible for the strategic vision of Medivet and has overseen the operations of that Company since its formation in 2010.

He has been a successful entrepreneur since early 2000's with a keen eye for innovative new products, technologies and unexploited market niches. In 2008 he formed a partnership with the then principals of Medivet for the manufacture and sale of veterinary and natural therapeutic products in North America.

In 2010 Medivet America LLC, of which Jeremy was then President and CEO, launched the world's first in house stem cell therapy program.

He is a Bachelor of Science in Business Management and has extensive experience in portfolio and business investment analysis and strategies.

Jeremy is ideally suited to promote and advance the interests of MLA in its stem cell and associated veterinary products division and is a member of the Thoroughbred Club of America.

Yours sincerely,

Ian Mitchell  
Company Secretary/Director  
Medical Australia Limited
